Opening Prices Show Fractions Higher, Followed by Gains All

cHicago, September 14.—Wheat prices here developed considerable strength today, influenced largely by firmness in the Liverpool market, where sellers were withdrawing offers, and it was said Argentine shipments promised a sharp decrease. There also was gossis that much of the wheat being received at terminal markets in the American northwest appeared to be of such poor quality that it could be used only for feed. Opening prices, which ranged from the same as Tuesday's finish to 1¼ higher, were followed by decided gains all around.

Fear of frost carried the corn market up. After opening ½ to 1 higher prices continued to ascend. Oats rose with corn and wheat. Commission houses were active buyers.

Reports of large Belgian orders here for lard and meats gave a big lift to provisions. There was a general rush to buy.

NEW YORK.

NEW YORK, September 14.—Cotton futures opened firm; October, 15.45; December, 15.62; January, 15.75; March, 15.90; May, 16.14.

The market opened firm at an advance of 13 to 25 points today, with January contracts seiling at 15.82 right after the call, or 22 points above last night's close. Firmness in Liverpool, the bullish domestic consumption figures issued by the census bureau for August.

The bulls in wheat were favored by announcements that the Greek government had purchased in the United States 1,000,000 bushels of wheat and 60,000 barrels of flour. Late in the session, however, a sharp setback in prices resulted from reports that Argentine wheat was being offered at Galveston lower than domestic wheat. The close was weak 15% to 2% net lower, with December at 1.48% to 1.49% and May at 1.49 to 1.49%.

Advances in corn were not well maintained, especially after wheat turned weak. The close was heavy at % to 1.49%.
